N/A

**Caution**

Load Test shall be conducted by a qualified person. Operators must be certified through a nationally accredited and OSHA recognized certification program.

**Caution**

Operation of Cranes by inspectors is limited to those crane functions necessary to accomplish the inspection. Inspectors must meet operator trainee qualification requirements in ASME B30.5 and only operated under the direct supervision of a certified operator.

**Corrective Actions**

The following corrective action(s) are to be performed by a qualified person in accordance with all the manufacturer's instructions, specifications, and requirements. OSHA requires that if any deficiency needs to be monitored (M), the crane owner must ensure that the deficiency is checked in the monthly inspections. Recommendations (R) should be considered for corrective action. Recommendations can also be used to identify industry accepted safety and operational enhancements.

**Status**

S = Satisfactory  
 X = Safety Hazard  
 M = Monitor  
 R = Recommendation  
 N/A = Not Applicable

**Deficiency**

41 - outrigger stow pegs broken off.

**Deficiency**

62 - bubble level in cab broken.

**Deficiency**

104 - Aux. hoist drum tensioner missing.

**Deficiency****Deficiency****Deficiency****Deficiency****Deficiency****Deficiency****Deficiency****Disclaimer**

Company agrees to perform an OSHA/ASME annual/periodic inspection as stated under OSHA standard 1926 subpart CC and ASME standard B30.5 of

the above listed crane equipment only, and to provide a completed inspection checklist/deficiency report for same. This is not a contract to provide repairs for any noted deficiencies, nor is it a warranty agreement as to ongoing use or condition. The inspection will be performed in accordance with the applicable OSHA/ASME standards in effect as of the date of this agreement. The inspection only includes those systems and components expressly and specifically identified in the inspection report. The inspection does not include any destructive testing or dismantling or of any areas beyond the visibility/accessibility requirements generally applicable to inspections under these standards. Client understands that the inspection report does not constitute a guarantee or warranty of merchantability or fitness for a particular purpose, expressed or implied, nor an insurance policy. The written checklist/findings prepared by Company shall be considered the final and exclusive findings of Company. Client understands and agrees not to rely on any oral statements made by the Inspector.

Arbitration: Any dispute concerning the interpretation of this agreement or arising from the inspection and report, except one for inspection fee payment, shall be resolved informally between the parties or, if not shall be resolved exclusively by arbitration under the commercial rules of the American Arbitration Association, with any action to enforce or compel arbitration to be brought in the federal or state courts having venue in Montgomery County, Pennsylvania. Client also agrees that venue in such courts is proper in such courts for any action to compel payment brought by Company.

I have read, understand and agree to all the terms and conditions of this contract.

**Company Representative signature**

**Inspector signature**

A handwritten signature in black ink that reads "William Sautter". The signature is written in a cursive style with a large initial "W".
